The **Revelation**
range

EUROCAVE 

The Revelation range ...

“Delicate gestures reveal delicate emotions.”

African proverb

Three irresistible factors...

A protective cocoon

Every detail of this cabinet has been designed to offer maximum protection for your wine: Inclusion of all the criteria essential for maturing wine, just as in a natural cellar. A new sliding shelf fitted with a main du sommelier made from a structure in two materials which adapts to the shape of the bottle and protects it from vibrations. A soft-close device which slows the movement of the shelf when it is pushed back into the cabinet.

Low energy consumption

These cabinets are guaranteed to consume less energy* and produce low sound levels so that they can be placed in living areas.

Every optional extra that you could desire in a cabinet

For each cabinet, it is possible to choose the colour, size, door, external and internal finishes for an almost tailor-made product.

*Large, 1-temperature cabinets in the Collection range

The luxury of choice

Cabinets that measure up

Two sizes with the flexibility to allow 74 - 234 bottles to be stored. The cabinets and their layouts offer maximum optimization of capacity.

Frivolous or Frugal?

Our Revelation cabinets are available for two types of use: 1-temperature for maturing your wine over time or multi-temperature for those who prefer to have their wine at an ideal serving temperature straight away.

Each to their own

Choose between three different doors: high gloss black for the purists, full glass for the hedonists, stainless steel and glass for those who favour a contemporary look and, if you wish, add the elegant handle in distinctive glass¹.

Full Glass

Black Piano

Stainless steel glass²

A range of finishes to suit personal taste

Black or wood colours, leather or stainless steel cladding... Choose the finish that suits your requirements.

1- Detachable handle, easy to fasten (Full Glass and Black Piano doors only).
2-Large model only. 3- Small model only.

patented **model**

*And then
there was light...*

Sparkling presentation for your bottles – this is what the Revelation range offers. A strip of light all around the cabinet bathes your bottles in a halo of amber which dramatically highlights the inside of the cabinet...UV-free lighting to safely accentuate your bottles.

Smooth handling

By creating this new range, we wanted to offer a new generation interior layout, for improved ergonomics and ease of use. Discover how to best arrange,

store and organise your wines.

Sliding shelf

Capacity for up to 12 bottles

Designed for improved aesthetics and fluidity of use, the new structure of the sliding shelf conceals all of its technical features beneath its stylish curves. It has a soft-close device which slows the speed of the shelf at the end of travel. Holding your bottles safely and securely.

Soft-close device
MOUNTED ON EACH SLIDING SHELF, IT ALLOWS QUIET, SMOOTH HANDLING

Storage shelf

Capacity for up to 77 bottles

Again, the mechanism has been designed to facilitate installation of the shelf in the cabinet. For improved durability and ergonomics.

Choose your front

The warmth of light oak or the modernity of glossy black?

Identify your wines

New epoxy-coated steel labels on which you can write information about your precious bottles. Up to 6 detachable labels per shelf. White felt-tip pen supplied (erasable).

The new generation Main du Sommelier

This structure in two materials cradles your bottles and protects them from vibration. It is detachable, allowing it to adapt to your storage requirements in terms of bottle shape and number. The Main du Sommelier allows easy placement of your bottles. User-friendly, your bottle will slip easily into place.

patented design

*The best possible conditions
for maturing and serving wine...*

These things take time...

Maturing cabinets

They recreate the same conditions found in a natural cellar. All meet the 5 criteria essential for storing wine:

- A temperature which is constant thanks to a dual Hot/Cold control and uniform (temperature gradient +/- 0.5°C).
- Our cabinets are fitted with a mechanical thermostat for double protection (frost protection)*.
- Suitable humidity levels thanks to the Hygro+ system and the embossed aluminium walls
- A permanent ventilation system ensured by breather effect
- Guaranteed protection from UV rays for the solid door or glass door with highly effective UV screening.
- Protection from vibrations thanks to the compressor being isolated from the cabinet body.

Wine serving cabinets

Whilst protecting your wine in the same way as a natural cellar, these cabinets differ from maturing cabinets owing to their temperature, which is graduated from 5 - 22°C: up to 10 different temperature zones allowing you to store several types of wine (rosé, white, red) in the same cabinet at an ideal serving temperature.

* 1-temperature model only

A 5 year parts warranty

Always striving to offer you the best possible service, for its Revelation range EuroCave offers:

- a 5 year parts warranty*
- 10 years rust-proofing

*Details of additional warranty offers can be found in the general terms of sale.

Low energy consumption

A range of wine cabinets that contributes to protecting the environment by reducing its energy consumption.

Up to 64% less energy consumed compared to a traditional wine cabinet.*

1-temperature cabinet, large model, from the Collection range.

Origine France Garantie label

Since 2012, EuroCave is the first – and only – wine cabinet manufacturer to hold the “Origine France Garantie” label for all of its cabinets. This label guarantees the origin and place of manufacture of the product and supports French know-how.

The seal of approval of a Master Sommelier

As for all of our products, this range is approved by John Euvrard, Meilleur Ouvrier de France Sommelier (France's top wine steward) 2007. A guarantee of the reliability of our products and their ability to meet the requirements of top wine professionals.

Energy and technical features

Ref.	Dimensions HxD (mm) ¹	Weight when empty ¹ (kg)	Bottle capacity ²			Energy efficiency class ¹	Annual energy consumption AEC ⁴ (Kwh/year)	Useful volume (liters)	Sound emission (dB(A))		Permitted temperature range ¹ min. / max.	
			Access ³	Premium ³	Maximum ³				R600a	R134a	°C	°F

Category of all the models: 2. – Climate class: Our appliances are designed to be used at an ambient temperature of 10°C - 32°C. (Class SN) – These models cannot be flush-fitted.

1- Data calculated with a high gloss black door. 2- The capacities of the cabinets are calculated using traditional Bordeaux bottles. 3- Access pack: mixed, fixed and sliding shelves – Premium pack: 100% sliding. 4- Energy consumption calculated with a high gloss black door based on the results obtained over 24hrs in standard test conditions (25°C). Actual energy consumption depends on operating conditions and the appliance's location.

Control

Temperature setting range possible
 - 1-temperature: 5 - 20°C / 41 - 68°F
 - Multi-temperature: 5 - 22°C / 41 - 77°F
 LED screen with touch sensitive keys
 Electronic internal setting and display
 Humidity display

Visual alarms in case of malfunction:
 - open door
 - sensor fault
 - temperature fault
 - charcoal filter
 - humidity cut-off

Equipment

Interior lighting (3 lighting options: permanent, activated upon opening, disabled)
 Active charcoal filter with meter
 Adjustable feet at the front
 Lock
 Heat insulation (polyurethane foam)

The little plus-points that make all the difference!

TWO INDEPENDENT THERMOSTATS ENSURE DOUBLE FROST PROTECTION*

*1-temperature model only
