Produce of France

12% vol.  
75 cl

CONTAINS SULPHITES

Wine: Vin de Table rouge  
Négociants-eleveurs Dufouleur Père & Fils  
Grape: Blend of Cinseault, Syrah and Grenache  
Alcohol: 12%

### Vinification and maturing

The various grape varieties have been vinified separately (maceration at first for a maximum extraction of the colour, alcoholic fermentation then in open vats). The three wines have then been blended and left to mature in stainless steel vats to keep all of its freshness both on the nose and palate.

### Tasting notes

Deep red robe, light purple tints, clear and brilliant. Clean and franc bouquet of fresh ripe fruits (cherry and prune) with a touch of spices. Soft attack in mouth, fresh, full-bodied with a good balance, round, soft and ripe tannins, lively and full of fruits !

### Food pairing

Enjoy it with grilled or roasted light meat (pork, chicken), sausages and delicatessen as well as barbecue. May also be served with light cheese and over a full light meal.

### Serving temperature

At a temperature of about 12°C

(Indeholder sulfitter)
